Ministry of Oceans and Fisheries

To: President of the Korea Maritime Transportation Safety Authority, Statutory Service Team of the Korean Register, Bureau Veritas Korea Office

Title: Notification on the initiation of ship e-certificate issuance

1. The Ministry of Oceans and Fisheries has been pursuing the policy of transitioning toward the

issuance of e-certificates away from paper documents, by accommodating Guidelines of the

International Maritime Organization (FAL.5/Circ.39/Rev.2) for various reasons including the easing of

administrative burden arising from paper-based ship certification.

2. Thus, as legal grounds and specific standards for e-certificate issuance, the Enforcement Rules of

the Ship Safety Act, Enforcement Rules of the Ballast Water Management Act, and Rules on the

Prevention of Pollution from Ships have been amended, and the Public Notice on the Issuance of

E-Certificate for Ships has been established, taking effect on December 18, 2020. E-certificate issuers

are required to comply with the laws and regulations specified above.

3. The Rules on the Maritime Transportation and Storage of Dangerous Goods, Standards on Ships

Operating on Polar Seas, and Standards on the Design and Facilities of Floating Maritime Structures

are currently under the process of amendment. Thus, e-certificates should be issued in compliance

with the Article 87-2 of the Enforcement Rules of the Ship Safety Act and the Public Notice on the

Issuance of E-Certificate for Ships. The end.

Minister of Oceans and Fisheries

Assistant Manager Yong-seok Yoon

Senior Deputy Technical Director Chang-seob Nam

Director Jong-uk Choi
